

BEST PRACTICES IN MANAGING VOTER REGISTRATION

The Michigan Qualified Voter File (QVF)

The QVF provides electronic linkage for elections officials throughout the State of Michigan to an automated and integrated statewide voter registration database (<http://www.sos.state.mi.us/election/qvf/index.html>).

California "On-line" Voter Registration

California's "on-line" voter registration process allows for easy distribution of voter registration forms via the Internet (<http://sosdev3.ss.ca.gov/votereg/OnlineVoterReg>). The system does not allow for truly "on-line" voter registration, as a paper-based signature is still required.

Orange County, Florida

County workers with laptop computers containing countrywide voter registration information assisted with voter authentication in the polling places, reducing registration problems at the polling places significantly.
